

Safari Week

A week long adventure about animals

Safari Week is all about having fun. Our Campers will be acting crazy out all week, pretending they are animals and exploring nature. It is an action-packed week great for girls and boys who love make-believe.

During the week, each child participates in several activities, songs and dances designed to teach about jungle animals. During Fun in the Jungle Adventures, children explore different aspects of jungle animals, including where they live and what they look like. The emphasis of these adventures is science as children learn about the habitat of jungle animals.
